HPS ALC - An alternative education provider!

As the Hendricks Public Schools Alternative Learning Center (HPS ALC), we provide a world class education for middle and high school-aged students. We pride ourselves on being able to offer high quality curriculum that is adaptable to meet the needs of each and every student.

Here, students will find the individualized attention and the empowering feeling of accomplishment to help them succeed in their high school career and beyond. Our very own MN-licensed teachers are dedicated to educating each individual student.

Students never have to leave their home district or enrolling school! HPS ALC works with a student's enrolling school to help ensure success. We work with principals, counselors, parents, and students to determine whether the online learning option is truly the right choice for each individual student.
